MEMORANDUM FOR: See Distribution

FROM: [REDACTED] IHC

25X1

SUBJECT: Request for Access to COINS Files
via Terminal [REDACTED]

25X1

REFERENCE: ICS Ltr 83-3126, dtd 16 Mar 83, Subject:
Establishment of COINS Terminal at the
[REDACTED]

25X1

1. Based on the referenced letter, the Community's On-line Intelligence System (COINS) Project Manager's Office (PMO) has initiated actions to install a COINS terminal in Room 3N10 [REDACTED]. The request for a COINS terminal was justified on the basis of the IC Staff's need to update the automated DCID 1/2 priorities data base which will be processed on a COINS computer. It is estimated that the COINS terminal will be installed [REDACTED] by October 1983.

25X1

25X1

2. COINS offers access to a variety of files on several different subjects which are made available to authorized COINS users based upon approval by the agency that sponsors the file. Approval is based on an individual's request to access a particular agency file. The COINS PMO has made available a list of these files (attached) and has requested that the IC Staff provide a comprehensive list of individuals who would like access to specific files. The following information is required in order to access each file:

- o name, SSN, organization, and clearance level of individual requesting access to file;
- o name of each file requested; and
- o justification for accessing each file requested.

3. I will consolidate the IC Staff's request and coordinate with the COINS PMO to make these files available to authorized users. Please return your request for COINS access to me by 1 September 1983. I can be reached on [REDACTED] if you have questions.

1. Based on the referenced letter, action is in progress to establish the requested terminal. However, additional information is required for implementation planning. The reference specifically identified use of the terminal to update the automated DCID 1/2 priorities data base. Access requirements for other existing COINS files were not identified. To insure the terminal provides access to files which satisfy the needs of your personnel, please review the enclosed list of COINS files and, if applicable, identify those for which access is required. Additionally, please include justification for each file required so this office can provide a consolidated list of requirements with associated justification to the various file sponsors for access authorization review and approval.

2. An additional item of information which is needed is a listing of the names and social security numbers of personnel who will operate the terminal. If you desire that access to certain COINS files be limited to specific individuals, please annotate the personnel list accordingly.

PL 86-36

3. The COINS Project Management Office point of contact for future file access changes will be [] telephone (commercial) 688-7571 or (NSA secure) 963-5978. Please identify an Intelligence Community Staff counterpart point of contact.
